Owned with Mortgage or Loan: largest proportion occupied by married or same-sex civil partnership couples with dependent children (25.4%), 2011

Social Rented from Local Authority: largest proportion occupied by one person aged below 65 (27.5%), 2011

Privately Rented: largest proportion occupied by one person aged below 65 (28.1%), 2011

Overcrowding and Fuel Poverty

The Office for National Statistics (ONS) uses occupancy rating statistics to determine if a household's accommodation is overcrowded, with a rating of -1 implying that a household has one bedroom fewer than required.

- 4.2% of households in Cannock East had one bedroom fewer than required at the time of the 2011 Census. This was above the District average of 3% in 2011.
- 12.2% of residents in Cannock East were living in fuel poverty in 2011. This was above the District average of 11.8%

Families with Dependent Children and Older People

26.2% of households in Cannock East had dependent children in the household in 2011. This was slightly below the District average of 30.7%.

- There were 5.9% of households with dependent children in which no adults were in employment. This was above the District average of 4.1%.
- In 4.6% of households with dependent children, one person had a long-term health problem or disability which was below the District average of 5.3%.

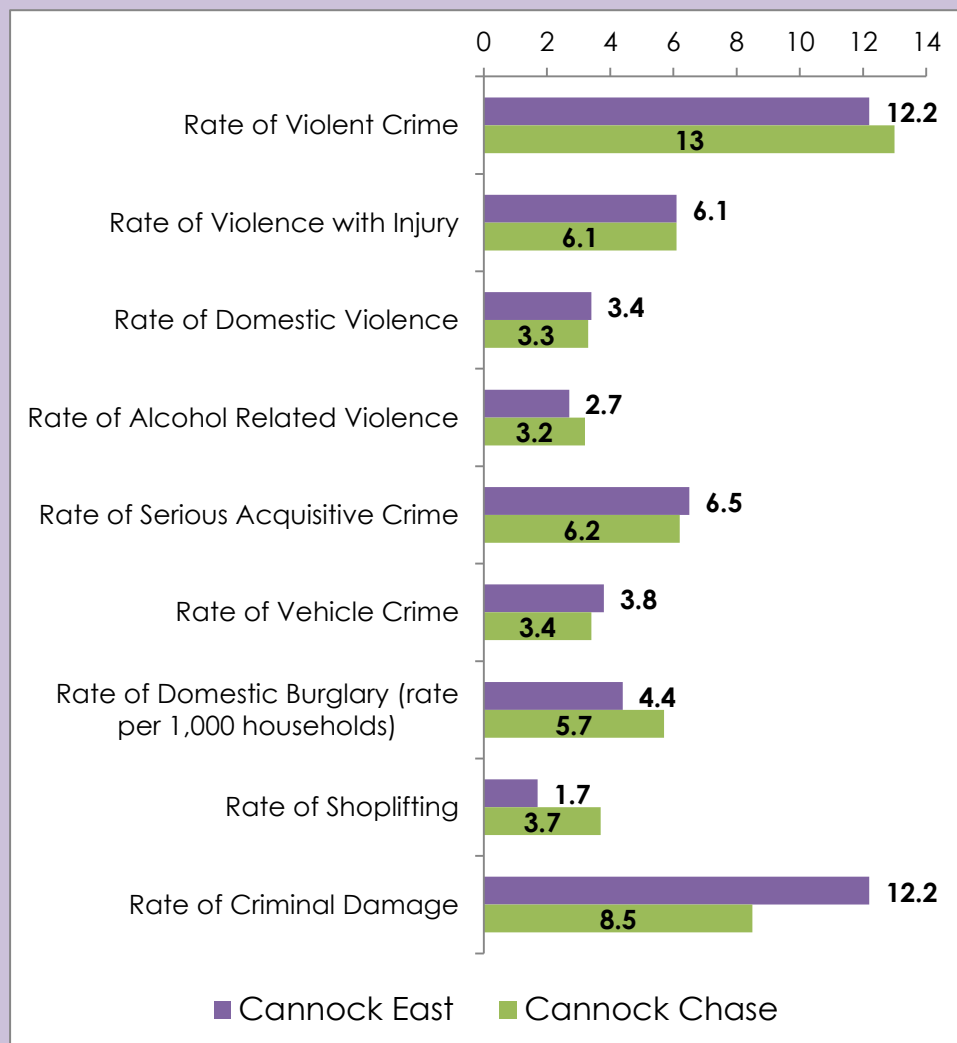

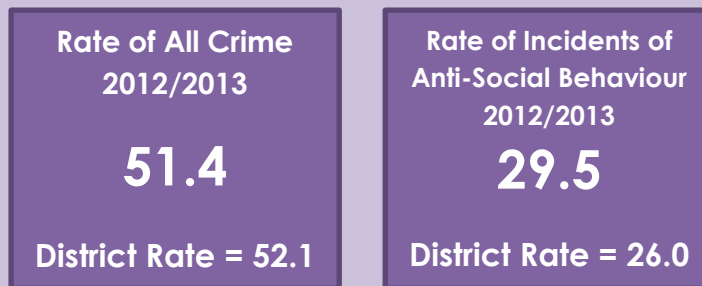

- 13% of older people were living alone in Cannock East in 2011. This was above the District average of 11.4%.

Community Safety

Figures from Staffordshire Police, 2012/2013 show the following rates of crime and anti-social behaviour. The data is presented as a rate per 1,000 residents (per 1,000 households for domestic burglary).

Labour Market

Economic Activity and Age, 2011

Part-Time Employees: largest proportion aged 40 to 44 (13.4% all part-time employees).

Full-Time Employees: largest proportion aged 25 to 29 (13.3% of all full-time employees).
